

ELECMECH

SWITCHGEAR & INSTRUMENTATION

about us

Elecmech Switchgear & Instrumentation, launched in 1962, is a technology driven and service oriented company in the field of electrical engineering. Backed by over four decades of experience, the Company has experienced staff, skilled workforce and modern infrastructure facilities to manufacture quality electrical control panels for its clients. The company continuously strives towards providing quality execution and timely delivery.

Elecmech has built up a sizeable clientele base by offering customer-need based and maintenance-free panels. To meet the expectations of existing and potential clients, the company has cemented its production capabilities by the inclusion of modern designing, manufacturing and testing equipments. That is how our first fully drawout motor control centre was introduced.

Stability, reliability and dependability are deeply rooted in our quality system.

We thank all our customers and consultants for their continuous support and feedback which has helped us improve our quality and service. We request you to kindly give us an opportunity to serve you.

vision

To design manufacture & supply products with superior quality with excellence in all areas of business

mission

At Elecmeh Switchgear & Instrumentation, we are committed to achieve total customer satisfaction by providing technologically superior innovative high quality products and services & social welfare via NGO-BAPS

quality policy

We are committed to quality in all areas of our business. We pledge to monitor our performance as an on-going activity and strive for continuous improvement

BRAND ELECMECH

PRODUCTS

- Power Control Centres / LT Switchboard upto 6000 Amps.
- Fully Drawout and Non-Drawout Motor Control Centres
- Busducts upto 6000 Amps.
- Numerical Protection Systems
- Auxiliary Control Panels
- Distribution Board
- Lighting Distribution Board
- Annunciator Panels
- Automation systems: Scada, PLC, VFD, Soft Starters, HMI, MMI, Thyristorized Heater Control Panels
- Genset Automation Systems
